Café Muse by Mosaic Foods

Photographers like Brian Walski, Adnan Hajj, Yevgeny Khaldei and Hwang Woo-Suk have set the 21st Century standards in journalistic photography. Following their lead, ex-Museum janitor Dan Reetz presents a series of photographs that “sell” a story about the Museum. The former sculptor, video game artist, and current graduate student of Visual Neuroscience at NDSU, utilizes the latest digital capture and image production technology to show the Museum as no one has ever seen it.
